

How we keep **OUR SALON SAFE**

We take greater care of our hygiene

We regularly disinfect our hands, tools and all surfaces, including the work stations, door handles and light switches. We also provide washing and disinfecting products to our clients.

We use protective visors

Our staff have also been trained to remove them properly. Moreover, we have a designated place where you can dispose of your gloves, mask and cape before you leave the salon.

We are operating an appointment-only system

We ask our clients to book online or to contact us by phone (however, to maintain proper hygiene, we do not answer calls while providing services). We do not allow unappointed guests in the salon.

We follow strict appointment protocols

During their appointment, a client will come in contact with one service provider only. We do our best to ensure clients do not have contact with each other and we take care of maintaining proper spacing.

We care for the safety of our staff

We do not provide services to clients who are showing signs of sickness and we ask you to make appointments responsibly.

We recommend cashless payments

Our payment terminal is disinfected after each use.
